

AI, ROBOTICS, AND CODEX

Trace ROBController and Cerebro from early serial-control software to an AI-accelerated engineering era. This source-based guide studies Swift, MLX, perception, recording, identity, stage shows, spatial interfaces, verification, and the boundaries that keep generative systems outside direct motor authority.

- Swift, MLX, perception, and recording
- Identity, stage shows, and spatial interfaces
- Generative systems outside motor authority
